1. An unlocked, electronic spreadsheet is being submitted with this information.
2. An unlocked, electronic spreadsheet is being submitted with this information.
3. No documents exist related to changes to emission control components and related systems, because no changes have been made to emission control components and related systems in Valley's fleet vehicles. Valley Transportation Service Inc. is not aware of and has no knowledge about changes made to owner-operator vehicles outside of Valley Transportation Service Inc.'s fleet.
4. No testing has been conducted related to emissions, because no changes have been made to the emission control components, as described in #3 above.
5. a) Valley Transportation Service, Inc. does offer minor maintenance services to vehicles and/or engines outside of its fleet. These services are mainly offered to local farmers as a convenience and generally include oil change and brake jobs.
b) Valley fleet vehicles are occasionally services outside of our facilities for routine oil changes and regular service at periodical intervals as recommended. No major work is done on Valley vehicles on the road. Such routine service happens at various truck stops, as the operator sees fit.
6. Bradley R. Grafe, President of Valley Transportation Service, Inc., answered these questions and submitted the requested information.

Hi Shawn,

Attached is the spreadsheet with the information you requested. Just a couple of items that I want to point out:

- Units 0926, 0927 & 0928 did not sign on with us until April and June respectively. I entered their current miles but do not have information for 2016
- Unit 1700 did not actually begin driving under our authority until February of this year
- Units 1753 & 1757 did not have drivers until January and February of this year.
- Unit 0755 is our yard truck at our Waterloo yard. I included the current mileage of the truck but as for traveled miles and gallons consumed I do not have that information. This unit is used to move trailers around within our yard so it is not used very much.

Thanks,
